

BFB MS 500

☑ BFB MS500 collator stretch-banding machine for cartons.

- Very compact design machine.
- Main movements driven by mechanical cams.
- Great accessibility.
- New design sealing bar to avoid build up of plastic.
- Film stretching device fully adjustable according to requirements.
- Easy film loading.
- Quick change-over features.
- PLC Siemens Mod. S 7

In case of bundle shrink-wrap a shrink-tunnel can be fitted at machine discharge. The same machine can be supplied with right angle infeed system ("E" version).

Optional items:

- Stainless steel guards.
- Manual film splicing unit.
- Second reel holder.

MS500							
Version	A	B	C	D	E	F	H
	mm	mm	mm	mm	mm	mm	
MS500	15-330	12-100	50-300	60-330	30-200	50-300	50-500
MS500E	15-390	12-100	50-220	50-220	25-200	75-390	50-500

Maximum speed: up to 30 bundles/min.
 Wrapping film: PE.
 For shrink-wrapping, the machine has to be coupled with a shrinking tunnel.
